

**BODYBUILDING OFF SEASON
NUTRITION PROGRAM**

INTRODUCTION

This is a customized meal plan designed specifically for you. As we progress, I'll make adjustments based on your results, feedback, and overall progress. I'll also introduce different food options so you have variety while learning how to make smart meal substitutions on your own.

I want you to always let me know how these foods make you feel. Whether it's bloating, gas, low energy, hunger, or anything else, communication is extremely important.

If you ever have questions or something doesn't feel right, message me immediately. I'd much rather answer your questions than have you guess.

Throughout this process, I'll also teach you how to properly use a food scale so you develop a better understanding of portion sizes and food intake.

CHECK IN INFO

We'll have a weekly FaceTime, phone call, or voice call every **Friday** to review your progress.

Please submit all check-in information by **11:00 AM EST**. Late check-ins may be reviewed the following week.

During each check-in, we'll discuss:

- Progress from the previous week
 - Training performance
 - Nutrition adherence
- Energy, recovery, and digestion

Please make sure you're logging your workouts and weights in the app so I can review your progress.

You'll also need to submit your fasted progress photos and complete the weekly WhatsApp check-in form.

PAYMENT

Payments are due on the agreed upon date. This is non-negotiable unless discussed with me beforehand.

If payment is not made on time and there is no prior communication, you will lose access to the coaching app immediately.

All check-ins, updates, and communication will be paused until payment is completed.

Missed time due to late payment will not be made up or extended on your plan.

If you are having any issues, communicate with me ahead of time so we can handle it properly.

DUE DATE: 28TH OF EACH MONTH

ANTMANFITNESS MEAL PLAN GUIDE

Initially, we will not be incorporating cheat meals, so please don't ask for one early on. If and when I decide it's appropriate, I'll add them to your plan.

I highly recommend using zero-calorie condiments whenever possible. A list of approved options is included later in this guide.

Aim to drink at least 16 ounces of water with every meal, with a daily goal of 1 gallon (128 oz).

Cook all chicken by grilling, baking, or air frying.

When eating whole eggs, make sure you consume the yolk as well. Egg yolks contain healthy fats along with important vitamins and nutrients.

If you enjoy over-easy eggs, make sure you eat the entire yolk.

CARDIO SESSION BREAKDOWN

Duration: 40 minutes

Sessions: 7

Cardio Preferred: ANYTIME

Steps Required: 10k minimum

**Equipment
you can utilize:**
-Incline treadmill
-StairMaster
-Bike

Level Intensity:

HR of 140-170*

Speed: 3.3-3.5 Incline: 15-20

**If your knees hurt, move your cardio to
the bike, but make sure to match the
intensity.**

SAUNA SHEET

Duration: 20 mins

- Frequency: 6x weekly
- Water Before: 16–24 oz
- Water After: 16–24 oz
- Electrolytes: Before & After as needed

Please do not exceed 30 minutes.

HEALTH SUPPLEMENTS

All these supplements can be found at Optimal or Amazon. Please message me if you need help finding them or just have questions about them

BEFORE MEAL 1

- Multivitamin
- Fish Oil
- Probiotic
- Digest Enzyme
- GDA Supplement
(2 pills before cheat
meals *GDA Only*)

Plus any extra medication we
discussed.

Also if you need help finding
certain supplements you let me
know.

TRAINING SUPPLEMENTS

If anything you need the link below message me. All of these can be found on Amazon. If you have any brand questions, message me as well.

- Isolate or Beef Protein
- EAAs
- Creatine Monohydrate
- Green Powder
- Good Morning Powder
- Rehab/Karbolyn

WORKOUT STACK PROTOCOL

PRE WORKOUT MIX

Water Mixed With:
1 Serving L Carnitine
1 Scoop Pre/Pump
24 Ounces Water

INTRA WORKOUT MIX

Drink 1 (can mix with shaker
or half/full gallon)
5g EAAs (iPrevail)
5g Monohydrate Creatine (iPrevail)
24 Ounces Water

Drink 2 (mix with full shaker 20/24oz)
25 Intra Carbs (iPrevail)

POST WORKOUT

Zero Gatorade or Powerade
(Flavor of Choice)
Make sure it is the
zero cal verison
L-Glutamine Powder

DAILY BEVERAGES

Certain sugar-free sweeteners, drinks, coffee, and diet sodas can affect digestion and gut health during prep.

That's why I give you specific options and amounts. If you're unsure about something, just ask me first.

Amount Per Day:

1-2 Cups of Coffee Per Day

Limit Calorie Free Sweetener

1-2 Diet Sodas/Drinks Allowed Per Day

WATER INTAKE DAILY

Staying hydrated throughout the day helps support digestion, energy, and recovery. Sip water steadily all day instead of waiting until you feel thirsty.

**Amount of Water:
1-1.25 Gallons Daily**

**8-16 ounces per meal or 36
ounces between meals**

**Split the total amount
throughout the day. Do not
drink all your water at once; sip
it throughout the day.**

UPON WAKING UP

(MAKE THIS INTO ONE DRINK
IF POSSIBLE)

1 scoop Good Morning
20 oz water

Wait around 30
minutes after taking
Good Morning before
having MEAL 1.

20 oz water
1 scoop green powder

Take all the vitamins listed above with the green
drink to get everything out of the way at once.

CHEAT MEAL INSTRUCTIONS

Cheat Meals Each Week: 0

When it comes to cheat meals, I personally recommend having them in one of two ways. One way is to have it on a rest day towards the night, so you have extra food for the next day. If you train early in the day or even the afternoon, you can fully utilize the food.

The second way is to have it on a day when you need it the most, but after your workout. This way, you can use the food as fuel for your lift.

Types of Cheat Meals

Typically, I recommend opting for a healthier option when it comes to having an extra meal, such as sushi. However, if that's not your preferred choice, another great option would be a burger and fries combo. It's a surprisingly satisfying combination.

Caloric Goal

We'll discuss this section when we introduce cheat meals and make adjustments based on your current goals.

ENERGY DRINK RECOMMENDATION

ALL THESE DRINKS ARE SUGAR-FREE, BUT I ADVISE AGAINST CONSUMING MORE THAN TWO PER DAY. ADDITIONALLY, ENSURE THAT THEY ARE CONSUMED EIGHT HOURS APART.

DRINKS:

- ULTRA ZERO MONSTER
- 3D ENERGY DRINK
- GHOST ENERGY DRINK
- C4 ENERGY DRINK
- RYSE ENERGY DRINK
- SUGAR FREE RED BULL

CONDIMENT SHEET

I PERSONALLY USE FRANK'S RED HOT BUFFALO SEASONING ON MY CHICKEN. HOWEVER, YOU CAN USE ANY SEASONING AS LONG AS IT'S ZERO CALORIES (SUGAR SHOULDN'T BE LISTED ANYWHERE ON THE LABEL). I ALSO RECOMMEND LOW-SUGAR KETCHUP IF YOU'RE NOT IN A CONTEST PREP. AS FOR COFFEE, I STRONGLY ENCOURAGE USING TRUVIA AS A SWEETENER. THE COMPANY, WALDEN FARMS, ALSO PRODUCES ZERO-CALORIE SAUCES AND SYRUPS THAT ARE ACCEPTABLE.

IMPORTANT NOTE: CHRONIC USE OF ARTIFICIAL SWEETENERS CAN POTENTIALLY CAUSE DIGESTIVE DISTRESS. WITH THAT IN MIND, PLEASE MAKE SURE TO CYCLE THESE OPTIONS (EVERY THREE WEEKS) TO ALLEVIATE GASTROINTESTINAL PRESSURE.

CONDIMENT SHEET OPTIONS

- Sugar Free Ketchup
- Mustard
- Buffalo Sauce
(check back of bottle to
make sure it has no fat)
- G Hughes
- Flavor God
- Sriracha
- Tabasco
- Stubb's
- Pico de gallo / Fresh
Salsa

If there is a sauce I didn't mention
above and you're curious if you can
have it, please send me a message or
text me.

CARB CYCLE BREAKDOWN

Monday : mod day

Tuesday : mod day

Wednesday: mod day

Thursday : low day

Friday : mod day

Saturday: high day

Sunday : low day

3 Types of Blocks

- high day
- low day
- mod day

TRAVELING & STAYING ON YOUR GOALS

Simple tips to stay consistent while traveling

1 Aim for 25–40g protein at each main meal and 15–25g at snacks.

2 Keep weekend calories roughly within $\pm 10\text{--}15\%$ of your usual daily target.

3 Eat protein first at every meal.

4 Pack or purchase a protein snack before traveling: shake, eggs, cottage cheese, or Greek yogurt.

5 Make small swaps: extra protein, vegetables instead of fries, and sauce on the side.

6 Choose 1–2 things to fully enjoy; keep everything else sensible.

7 If you drink, budget those calories and alternate with water.

8 Quick protein options: whey shake, Greek yogurt, paneer, soy chunks, tofu, or a protein bar.

9 When you return home, reset with a protein-rich breakfast and get back to your routine.

10 Be kind to yourself — enjoy the trip, but don't derail your progress.

DATE NIGHT CHEAT MEAL PROTOCOL

This document will teach you how to plan date-night cheat meals that might typically be eaten on a date, compared to a normal burger or sushi free meal.

- 1. Maintain regular meals until dinner. You would only replace 1 meal (biggest meal)**
- 2. Start with a protein-based dish, make small swaps like veggies instead of fries and sauces on the side , and choose one or two indulgences while keeping other items sensible.**
- 3. Budget any alcoholic drinks. If drinking, account for those calories and alternate each alcoholic drink with water.**
- 4. Return to routine the next day. Have a protein-rich breakfast and resume your normal eating and exercise habits so that one treat doesn't derail weekly progress .**
- 5. Be kind to yourself. Enjoy the evening guilt-free—your planned indulgence fits within a balanced lifestyle as long as you get back on track.**
