# INTRODUCTION

This will be a customized meal plan that can be adjusted as needed. However, I will modify some food sources to provide variety and educate you on how to make smart substitutions. I want you to always let me know how these foods are affecting you, especially if they cause bloating, gas, or any other discomfort.

Please message me immediately if you can think of anything or if anything is happening.

I'll also teach you how to use a scale to better understand food control and how much food looks like.

# CHECK IN INFO

We'll have a brief FaceTime, call, or audio check-in this **Monday** . Please don't send any check-ins after 11 a.m. EST.

During check-in, we discuss the past week.

Please ensure that you record your entries on the tracker sheet so that I can review them during my check-ins.

I will also require you to submit fasted pictures and complete the Google form every week.

# PAYMENT

Payments are due on the agreed upon date. This is non-negotiable unless discussed with me beforehand.

**DUE DATE: 28<sup>TH</sup> OF EACH MONTH**

# ANTMANFITNESS MEAL PLAN GUIDE

Initially, we won't be introducing cheat meals right away, so don't ask me. I'll write them in the section of the document for you.

I also prefer and recommend using zero-calorie condiments, which are all listed in the document below.

Ideally, I would like you to drink at least 16 ounces of water with each meal. It's recommended to aim for at least 1 gallon of water daily, which is equivalent to 128 ounces.

All chicken must be cooked using grilling, baking, or air frying methods. However, I recommend cooking eggs so that you can enjoy the entire yolk. This part is rich in fats and contains a nourishing amino profile.

If you prefer your eggs over-easy, ensure you scoop out the entire yolk from the dish.

# CHEAT MEAL INSTRUCTIONS

## Cheat Meals Each Week: 1

When it comes to cheat meals, I personally recommend having them in two ways. One way is to have it on a rest day towards the night, so you have extra food for the next day. If you train early in the day or even the afternoon, you can fully utilize the food.

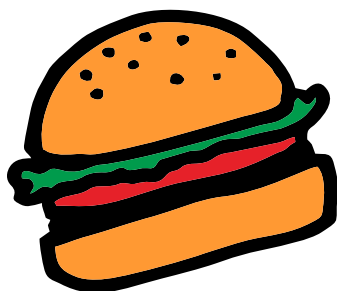

The second way is to have it on a day when you need it the most, but after your workout. This way, you can use the food as fuel for your lift.

### Types of Cheat Meals

Typically, I recommend opting for a healthier option when it comes to having an extra meal, such as sushi. However, if that's not your preferred choice, another great option would be a burger and fries combo. It's a surprisingly satisfying combination.

### Caloric Goal

We'll discuss this section when we introduce cheat meals and make adjustments based on your current goals.

# DATE NIGHT CHEAT MEAL PROTOCOL

This document will teach you how to plan date night cheat meals typically might be eaten on a date compared the normal burger or sushi free meals

1. **Maintain regular meals until dinner. You would only replace 1 meal ( biggest meal )**
2. **Start with a protein-based dish, make small swaps like veggies instead of fries and sauces on the side , and choose one or two indulgences while keeping other items sensible.**
3. **Budget any alcoholic drinks. If drinking, account for those calories and alternate each alcoholic drink with water.**
4. **Return to routine the next day. Have a protein-rich breakfast and resume your normal eating and exercise habits so that one treat doesn't derail weekly progress .**
5. **Be kind to yourself. Enjoy the evening guilt-free—your planned indulgence fits within a balanced lifestyle as long as you get back on track.**

# FOOD REVIEW CHEAT MEAL PROTOCOL

This document will teach you how to plan your day when doing things like this to make sure it does not impact progress.

1. **Prep your day. Eat your usual protein-rich meals ( around 2-3 & 1 snack (25–40 g at meals, 15–25 g at snacks).**
2. **Keep calories modest so the challenge meal fits within your weekly 90–10 balance.**
3. **Make the challenge your main meal. Skip your regular dinner and let the challenge be the focal point.**
4. **Start with the protein component and choose vegetable sides; ask for sauces separately and avoid sugary drinks. Focus on tasting and enjoying rather than finishing everything.**
5. **Plan for drinks. If alcohol is involved, account for those calories and alternate each drink with water to stay hydrated.**
6. **Recover and move on. The next day, return to your usual routine with a protein-rich breakfast and adjust your intake as needed.**

**A food challenge is a special occasion—enjoy it, but keep the rest of your week consistent**

# ENERGY DRINK RECOMMENDATION

ALL THESE DRINKS ARE SUGAR-FREE, BUT I ADVISE AGAINST CONSUMING MORE THAN TWO A DAY. ADDITIONALLY, ENSURE THAT THEY ARE CONSUMED EIGHT HOURS APART.

## DRINKS:

- ULTRA ZERO MONSTER
- 3D ENERGY DRINK
- GHOST ENERGY DRINK
- C4 ENERGY DRINK
- RYSE ENERGY DRINK
- SUGAR FREE RED BULL

# CONDIMENT SHEET

I PERSONALLY USE FRANK'S RED HOT BUFFALO SEASONING ON MY CHICKEN. HOWEVER, YOU CAN USE ANY SEASONING AS LONG AS IT'S ZERO CALORIES (SUGAR SHOULDN'T BE LISTED ANYWHERE ON THE LABEL). I ALSO RECOMMEND LOW-SUGAR KETCHUP IF YOU'RE NOT IN A CONTEST PREP. AS FOR COFFEE, I STRONGLY ENCOURAGE USING TRUVIA AS A SWEETENER. THE COMPANY, WALDEN FARMS, ALSO PRODUCES ZERO-CALORIE SAUCES AND SYRUPS THAT ARE ACCEPTABLE.

IMPORTANT NOTE: CHRONIC USE OF ARTIFICIAL SWEETENERS CAN POTENTIALLY CAUSE DIGESTIVE DISTRESS. WITH THAT IN MIND, PLEASE MAKE SURE TO CYCLE THESE OPTIONS (EVERY THREE WEEKS) TO ALLEVIATE GASTROINTESTINAL PRESSURE.

# CONDIMENT SHEET OPTIONS

- Sugar Free Ketchup

- Mustard

- Buffalo Sauce

( check back of bottle to make sure it has no fat )

- GHughes

FlavorGod

- Sriracha

- Tabasco

- Stubbs

- Pico De Gallo/Fresh Salsa

If there is not a sauce I mentioned above  
and you are curious if you can have them  
please send me a message over text.
