ANTMANFITNESS MEAL PLAN GUIDE

Initially...

We will not be introducing cheat meals right away so don't ask me. I will write them in the section in the document for you.

I also prefer and recommend using zero cal condiments which are all listed in the document below.

Ideally I want you to drink at least 16 ounces of water with every meal. Please strive for at least 1 gallon daily which is 128 ounces.

All chicken must be grilled, baked, or air fry. However, recommend cooking eggs so that you get the entire yolk. This part is full of fats and has a nourishing amino profile.

If you like your eggs over-easy, make sure to get ALL the yolk from the dish.

I ALSO RECOMMEND LOW SUGAR KETCHUP IF YOU ARE NOT IN CONTEST PREP. AS FAR AS COFFEE IS CONCERNED, I STRONGLY ENCOURAGE USING TRUVIA AS A SWEETENER. THE COMPANY, WALDEN FARMS ALSO PRODUCES ZERO CALORIE SAUCES AND SYRUPS WHICH ARE ACCEPTABLE.

IMPORTANT NOTE: CHRONIC USE OF ARTIFICIAL SWEETENERS CAN POTENTIALLY CAUSE DIGESTIVE DISTRESS. WITH THAT BEING SAID PLEASE MAKE SURE TO CYCLE THESE OPTIONS (EVERY THREE WEEKS) TO ALLEVIATE GI PRESSURE.

FREE MEAL INSTRUCTIONS

Free Meals Each Week: 1

When it comes to free meals I personally advise having it two ways one would be on a rest day towards the night so you have extra food for the next day if you train early in the day or even the afternoon to fully use the food right.

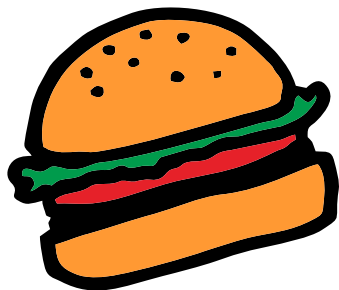

The second way would be to use it after a lift for a muscle we need to improve, and also the day before a lift for a muscle we want to grow.

Types Of Cheat Meal

Typically I advise someone to go for a clean option when it comes to having an extra meal such as sushi. But if thats not your fav another option would be burger and fries, a crazy combo that hits right.

Caloric Goal

I will advise you what you can have for you free meal via text and we will also keep testing different meals to see how you respond.

- Sushi Meal (4-5 rolls clean rolls no specialties or fried option atm)

DATE NIGHT CHEAT MEAL PROTOCOL

This document will teach you how to plan date night cheat meals typically might be eaten on a date compared the normal burger or sushi free meals

1. **Maintain regular meals until dinner. You would only replace 1 meal (biggest meal)**
2. **Start with a protein-based dish, make small swaps like veggies instead of fries and sauces on the side , and choose one or two indulgences while keeping other items sensible.**
3. **Budget any alcoholic drinks. If drinking, account for those calories and alternate each alcoholic drink with water.**
4. **Return to routine the next day. Have a protein-rich breakfast and resume your normal eating and exercise habits so that one treat doesn't derail weekly progress .**
5. **Be kind to yourself. Enjoy the evening guilt-free—your planned indulgence fits within a balanced lifestyle as long as you get back on track.**

the way in one shot.
