

LIFESTYLE NUTRITION PROGRAM

INTRODUCTION

This is a customized meal plan designed specifically for you. As we progress, I'll make adjustments based on your results, feedback, and overall progress. I'll also introduce different food options so you have variety while learning how to make smart meal substitutions on your own.

I want you to always let me know how these foods make you feel. Whether it's bloating, gas, low energy, hunger, or anything else, communication is extremely important.

If you ever have questions or something doesn't feel right, message me immediately. I'd much rather answer your questions than have you guess. Throughout this process, I'll also teach you how to properly use a food scale so you develop a better understanding of portion sizes and food intake.

CHECK IN INFO

We'll have a weekly FaceTime, phone call, or voice call every **Friday** to review your progress.

Please submit all check-in information by **11:00 AM EST**. Late check-ins may be reviewed the following week.

During each check-in, we'll discuss:

- Progress from the previous week
 - Training performance
 - Nutrition adherence
- Energy, recovery, and digestion

Please make sure you're logging your workouts and weights in the app so I can review your progress.

You'll also need to submit your fasted progress photos and complete the weekly WhatsApp check-in form.

ANTMANFITNESS MEAL PLAN GUIDE

Initially, we will not be incorporating cheat meals, so please don't ask for one early on. If and when I decide it's appropriate, I'll add them to your plan.

I highly recommend using zero-calorie condiments whenever possible. A list of approved options is included later in this guide.

Aim to drink at least 16 ounces of water with every meal, with a daily goal of 1 gallon (128 oz).

Cook all chicken by grilling, baking, or air frying.

When eating whole eggs, make sure you consume the yolk as well. Egg yolks contain healthy fats along with important vitamins and nutrients.

If you enjoy over-easy eggs, make sure you eat the entire yolk.

PERSONALLY, I ENJOY USING FRANK'S

WHEN CHOOSING SAUCES OR SEASONINGS,
ALWAYS READ THE NUTRITION LABEL AND
INGREDIENT LIST. AVOID PRODUCTS WITH
ADDED SUGARS WHENEVER POSSIBLE.
IF YOU'RE NOT IN CONTEST PREP, LOW-
SUGAR KETCHUP IS PERFECTLY
ACCEPTABLE.

FOR COFFEE, I RECOMMEND USING TRUVIA
AS A SWEETENER.

ZERO-CALORIE SAUCES AND SYRUPS THAT
WORK WELL.

IMPORTANT NOTE
EXCESSIVE CONSUMPTION OF ARTIFICIAL
SWEETENERS MAY CAUSE DIGESTIVE
DISCOMFORT FOR SOME PEOPLE.
IF THIS HAPPENS, REDUCE YOUR INTAKE
OR ROTATE PRODUCTS EVERY FEW WEEKS
TO GIVE YOUR DIGESTIVE SYSTEM A
BREAK.

FREE MEAL INSTRUCTIONS

Free Meals Each Week: 0

When it comes to free meals I personally advise having it two ways one would be on a rest day towards the night so you have extra food for the next day if you train early in the day or even the afternoon to fully use the food right.

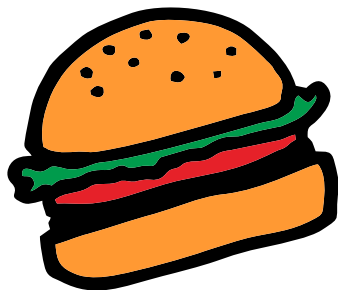

The second way would be to use it after a lift for a muscle we need to improve, and also the day before a lift for a muscle we want to grow.

Types Of Cheat Meal

Typically I advise someone to go for a clean option when it comes to having an extra meal such as sushi. But if thats not your fav another option would be burger and fries, a crazy combo that hits right.

Caloric Goal

I will advise you what you can have for you free meal via text and we will also keep testing different meals to see how you respond.

DATE NIGHT CHEAT MEAL PROTOCOL

This document will teach you how to plan date night cheat meals typically might be eaten on a date compared the normal burger or sushi free meals

1. Maintain regular meals until dinner. You would only replace 1 meal (biggest meal)
2. Start with a protein-based dish, make small swaps like veggies instead of fries and sauces on the side , and choose one or two indulgences while keeping other items sensible.
3. Budget any alcoholic drinks. If drinking, account for those calories and alternate each alcoholic drink with water.
4. Return to routine the next day. Have a protein-rich breakfast and resume your normal eating and exercise habits so that one treat doesn't derail weekly progress .
5. Be kind to yourself. Enjoy the evening guilt-free—your planned indulgence fits within a balanced lifestyle as long as you get back on track.
