

LIFESTYLE NUTRITION PROGRAM

INTRODUCTION

This is a customized meal plan designed specifically for you. As we progress, I'll make adjustments based on your results, feedback, and overall progress. I'll also introduce different food options so you have variety while learning how to make smart meal substitutions on your own.

I want you to always let me know how these foods make you feel. Whether it's bloating, gas, low energy, hunger, or anything else, communication is extremely important.

If you ever have questions or something doesn't feel right, message me immediately. I'd much rather answer your questions than have you guess.

Throughout this process, I'll also teach you how to properly use a food scale to develop a better understanding of portion sizes and food intake.

CHECK INFO

We will have a simple little
FaceTime/Call/Audio for each week's
Saturday check in.

I will not accept any check-in past 11am EST.

During the check in, we discuss the past
week.

I need you to make sure you are writing down
weights in the app so I can look them over
when doing my check-ins.

I will also need you to submit fasted pictures
and fill out the WhatsApp form each week.

PAYMENT

Payments are due on the agreed upon date. This is non-negotiable unless discussed with me beforehand.

If payment is not made on time and there is no prior communication, you will lose access to the coaching app immediately.

All check-ins, updates, and communication will be paused until payment is completed.

Missed time due to late payment will not be made up or extended on your plan.

If you are having any issues, communicate with me ahead of time so we can handle it properly.

DUE DATE: 1ST OF EACH MONTH

ANTMANFITNESS MEAL PLAN GUIDE

Initially, we will not be incorporating cheat meals, so please don't ask for one early on. If and when I decide it's appropriate, I'll add them to your plan.

I highly recommend using zero-calorie condiments whenever possible. A list of approved options is included later in this guide.

Aim to drink at least 16 ounces of water with every meal, with a daily goal of 1 gallon (128 oz).

Cook all chicken by grilling, baking, or air frying.

When eating whole eggs, make sure you consume the yolk as well. Egg yolks contain healthy fats along with important vitamins and nutrients.

If you enjoy over-easy eggs, make sure you eat the entire yolk.

DAILY BEVERAGES

Certain sugar-free sweeteners, drinks, coffee, and diet sodas can affect digestion and gut health during prep.

That's why I give you specific options and amounts. If you're unsure about something, just ask me first.

Amount Per Day:

1-2 Coffee Per Day

Limit Calorie Free Sweetener

**1-2 Diet Sodas/Drinks Allowed
Per Day**

WATER INTAKE DAILY

Staying hydrated throughout the day helps support digestion, energy, and recovery. Sip water steadily all day instead of waiting until you feel thirsty.

**Amount of Water:
1–1.25 Gallons Daily**

**8–16 ounces per meal or 36 ounces
between meals**

**Split the total amount throughout
the day do not slam water down all
at once; sip on it.**

ENERGY DRINK RECOMMENDATION

ALL OF THE OPTIONS BELOW ARE SUGAR-FREE.
I RECOMMEND LIMITING YOURSELF TO NO MORE
THAN TWO ENERGY DRINKS PER DAY, SPACED
AT LEAST 8 HOURS APART.

DRINKS:

- ULTRA ZERO MONSTER
- 3D ENERGY DRINK
- GHOST ENERGY DRINK
- C4 ENERGY DRINK
- RYSE ENERGY DRINK
- SUGAR FREE RED BULL

CONDIMENT SHEET

PERSONALLY, I ENJOY USING FRANK'S REDHOT BUFFALO SEASONING ON CHICKEN, BUT YOU MAY USE ANY SEASONING THAT IS ZERO OR VERY LOW IN CALORIES.

WHEN CHOOSING SAUCES OR SEASONINGS, ALWAYS READ THE NUTRITION LABEL AND INGREDIENT LIST. AVOID PRODUCTS WITH ADDED SUGARS WHENEVER POSSIBLE. IF YOU'RE NOT IN CONTEST PREP, LOW-SUGAR KETCHUP IS PERFECTLY ACCEPTABLE.

FOR COFFEE, I RECOMMEND USING TRUVIA AS A SWEETENER.

WALDEN FARMS ALSO OFFERS SEVERAL ZERO-CALORIE SAUCES AND SYRUPS THAT WORK WELL.

IMPORTANT NOTE

EXCESSIVE CONSUMPTION OF ARTIFICIAL SWEETENERS MAY CAUSE DIGESTIVE DISCOMFORT FOR SOME PEOPLE. IF THIS HAPPENS, REDUCE YOUR INTAKE OR ROTATE PRODUCTS EVERY FEW WEEKS TO GIVE YOUR DIGESTIVE SYSTEM A BREAK.

CONDIMENT SHEET OPTIONS

- Sugar Free Ketchup
- Mustard
- Buffalo Sauce

(Check the nutrition label to ensure it contains little to no fat.)

- GHughes
FlavorGod
- Sriracha
- Tabasco
- Stubbs
- Pico de Gallo/Fresh Salsa

If there's another condiment you'd like to use,
send me a message before adding it to your
plan.

FREE MEAL INSTRUCTIONS

Free Meals Each Week: 1

When it comes to free meals, I personally recommend having them in one of two ways. One way is to have them on a rest day in the evening so that you have extra food for the next day. If you train early in the day or even in the afternoon, you can fully utilize the food.

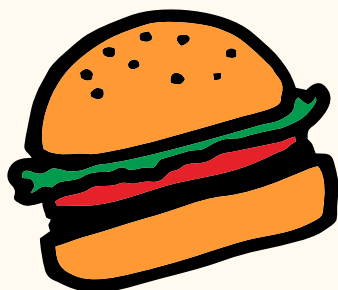

The second way is to have them on a day when you need them the most, but after your workout. This way, you can use the food as fuel for your workout.

Types of Cheat Meals

I usually recommend opting for a healthier choice when it comes to having an extra meal, like sushi.

But if that's not your favorite, another option would be a burger and fries combo. It's a crazy combination that hits the spot.

If you have something else in mind, please message me, and we can discuss it.

PERIOD WEEK PROTOCOL

During Your Menstrual Cycle

- Increase water intake to at least one gallon per day.
- Stay consistent with your meal plan and avoid eating off plan.
- Replace treadmill cardio with 8,000–10,000 daily steps whenever possible.
- Aim for 7–8 hours of quality sleep each night.
- Prioritize stress management by doing activities you enjoy, such as:
 - Going for the hike
 - Reading a book or magazine
 - Watching a movie
 - Taking time to relax

Sweet Tooth Option

If you're craving something sweet during your menstrual cycle, you may replace your nut butter with dark chocolate.

Replacement Guide

18 grams Nut Butter = 20 grams Dark Chocolate

Please weigh both options using your food scale to stay consistent with your nutrition plan.

Additional Support

- Take magnesium before bed during this week.
- If you need more pain relief, take one edible, preferably indica, and only one gummy.

HOW TO BUILD YOUR DAY

The goal is simple: hit your daily protein, carbs, and fats using foods that work best for your schedule, digestion, and lifestyle.

There is no requirement to eat the same meals every day.

Choose foods from the approved food swap list and build meals around your daily macro targets.

Prioritize:

- Protein at every meal
- Whole food carbohydrate sources
- Healthy fats in moderation
- Fruits and vegetables that you digest well
- Consistent meal timing when possible

When Eating Out:

You do not need to avoid restaurants. Simply make the best choice possible and aim to stay close to your macro goals. Consistency beats perfection.

For IBS:

Focus on foods that digest well and limit foods that consistently cause bloating, gas, or stomach discomfort. If a food causes issues, make note of it and we will adjust accordingly.

Remember:

No single meal will make or break your progress.

Your success will come from:

- Hitting your macros consistently
- Training hard
- Staying hydrated
- Managing stress
- Getting adequate sleep

The goal is to create habits that fit your life, not force your life to fit a meal plan.

TRAVELING & STAYING ON YOUR GOALS

Simple tips to stay consistent while traveling

1 Aim for 25–40g protein at each main meal and 15–25g at snacks.

2 Keep weekend calories roughly within $\pm 10\text{--}15\%$ of your usual daily target.

3 Eat protein first at every meal.

4 Pack or purchase a protein snack before traveling: shake, eggs, cottage cheese, or Greek yogurt.

5 Make small swaps: extra protein, vegetables instead of fries, and sauce on the side.

6 Choose 1–2 things to fully enjoy; keep everything else sensible.

7 If you drink, budget those calories and alternate with water.

8 Quick protein options: whey shake, Greek yogurt, paneer, soy chunks, tofu, or a protein bar.

9 When you return home, reset with a protein-rich breakfast and get back to your routine.

10 Be kind to yourself — enjoy the trip, but don't derail your progress.

DATE NIGHT CHEAT MEAL PROTOCOL

This document will teach you how to plan date-night cheat meals that might typically be eaten on a date compared to normal burger or sushi free meals.

- 1. Maintain regular meals until dinner.**
You would only replace 1 meal (your biggest meal).
- 2. Start with a protein-based dish, make small swaps like veggies instead of fries and sauces on the side, and choose one or two indulgences while keeping other items sensible.**
- 3. Budget any alcoholic drinks. If drinking, account for those calories and alternate each alcoholic drink with water.**
- 4. Return to your routine the next day..**
Have a protein-rich breakfast and resume your normal eating and exercise habits so that one treat doesn't derail weekly progress.
- 5. Be kind to yourself. Enjoy the evening guilt-free—your planned indulgence fits within a balanced lifestyle as long as you get back on track.**

CARB CYCLE BREAKDOWN

Monday : high block day

Tuesday : low block day

Wednesday: high block day

Thursday : low block day

Friday : mod block day

Saturday: low block day

Sunday : low block day

3 Types of Blocks

- mod block day
- high block day (make sure
this falls on leg day)
- low block day

Any days get messed around
with work message me to figure it out.
